Technical Skills

Languages: Python, Java, C/C++/C#, SQL, TypeScript with React
Experienced in: Object Oriented Programming, Debugging, Unit Testing, Agile Software Development
Developer Tools: Git, Docker, Visual Studio Code, Vim, PyCharm, IntelliJ, Arduino

Technical Experience

- | | | |
|--|--|-------------------------------|
| Anti-Apartheid Legacy Centre, UK | Placement Frontend Developer | Oct 2025 -- April 2026 |
| <ul style="list-style-type: none">Built a full-stack educational web application on apartheid in South Africa using React (TypeScript), Spring Boot, and PostgreSQL, featuring JWT authentication using Spring Security and role-based access control for user and admin, part of final year project.Implemented 10 interactive puzzle mechanics including fill-in-the-blank, drag-and-drop, and decision trees, tailored for learners aged 10–14.Deployed frontend on Vercel and backend on Render with a cloud PostgreSQL database, ensuring a production-ready and scalable architecture. | | |
| TELUS International AI Data Solutions | Online Data Analyst (Freelance) | Aug 2023 – Sep 2024 |
| <ul style="list-style-type: none">A remote job assigned to evaluate 1000+ online search engines queries in various domains and platforms e.g. Google, Edge, Firefox, etc utilising TELUS's proprietary tools and guidelines to analyse accuracy and ground ness of queries answers.Analysed data helps the company improve the content and quality of digital maps, normal web queries, audio and recordings, and search ads for enhanced user experience and targeted advertising. | | |

Technical Projects

- | | |
|--|-----------------------------|
| Flood Risk Tracker Web Application Flask, ReactJS, Leaflet, Python, SQLite, Pandas | Sept 2025 – Oct 2025 |
| <ul style="list-style-type: none">Designed a full-stack web application to visualise US county-level flood risks and provide safe route planning.Build backend integrations using Flask with SQLite to serve FEMA National Risk Index data, processing over 3000 county risk scores with Pandas for efficient data handling and API delivery.Implemented an interactive React frontend with Leaflet, featuring a choropleth map for flood risk visualisation and a user-friendly route planner that avoids high risk areas using Dijkstra's algorithm.Achieved seamless integration of geospatial data (GeoJSON) and external APIs, ensuring 100% uptime for map rendering and route calculations during testing. | |
| Venue-and-You Java, MySQL | Jan 2025 - May 2025 |
| <ul style="list-style-type: none">Led a team to be ranked top 5 out of 30+ projects on a university project demo day, on making a venue management and ticketing system from the ground up, collaborating with team of 5.Developed a seamless frontend using Java Swing and integrated it with robust Java + MySQL backend to support real time data operations, to enable secure login, client management, and booking systems for 100+ users.Directed team collaboration on GitHub repository over 7 weeks, ensuring timely delivery and excellent version control. | |
| Veracity x MLH Global Hack Week: AI/ML Hackathon Python, Flask, React, HTML & CSS | Oct 2024 |
| <ul style="list-style-type: none">Proposed and designed "Veracity," an AI-based project to give AI summary of a YouTube video during a 36-hour hackathon. | |
| End of the Line 2024 C++ | Oct 2024 |
| <ul style="list-style-type: none">Led a team to secure 2nd place in a university-wide robotics competition, programming a line-following robot with advanced C++ algorithms to achieve a 17-second track time, surpassing 16 teams, within a 7-week timeline. | |

Educational Qualifications

- | | | |
|---|-----------------------------|----------------------------|
| City, University of London | BSc Computer Science | Sep 2023 – May 2026 |
| <ul style="list-style-type: none">Year 1: Overall, 90.1% (Among the top 5 students, out of 320)Year 2: Overall - 85.6%Year 3: Predicted First Class with Honours (Key modules: Computer Vision, Programming & Maths for AI and Web Semantics for Knowledge Graphs which includes exposure to python for ML) | | |
| Haydon School, Pinner, UK | | Jan 2019 – May 2022 |
| <ul style="list-style-type: none">A-Levels – Mathematics (A), Computer Science (A), Physics (B)GCSCs: 9 subjects at A*/A (including Maths, Triple Science, English, Computer Science) | | |

Other Experience

- | | | |
|--|---------------------------|---------------------------|
| Sainsburys, London, UK | Customer Assistant | Aug 2023 – Present |
| <ul style="list-style-type: none">Streamlined store operations, boosting customer experience ratings by 15% through targeted process improvements.Appointed as store representative. for exceptional performance and leadership, managing interactions with 100+ customers daily. | | |
